STREETS AND NUMBERS.

By the provisions of an ordinance adopted by the Common Council, and approved March 8, 1887, the City of Port Huron is divided into two districts for house numbering.

One hundred numbers are allowed for each block, and 20 feet front is allowed for each number. Thus, in blocks having 400 feet front, there are 40 numbers, beginning, for example, on a street running east and west, between Sixth and Seventh streets, at 601, and ending at 640.

On the south side of Black river streets running east and west have the even numbers on the south side and odd numbers on the north side. The numbering begins at St. Clair river, the blocks east of First street being numbered from 1 to 100, between First and Second streets 101 to 200, and so on westward to the city limits.

On streets running north and south, south of Black river, the even numbers are on the east side and the odd numbers on the west side. Numbering begins at Black river, in the northwestern corner of the Fourth ward. The numbers between Miller street and Lapeer avenue are between 601 and 700; between Lapeer avenue and Gillett street 701 to 800; between Gillett and Howard streets 801 to 900; and so on to the southern limits of the city.

On the north side of Black river the same general plan prevails, numbers on east and west streets beginning at St. Clair river and running west, 100 for each block; and on north and south streets beginning at Black river and running north.

The names and locations of streets are as follows:

CITY OF FORT GRATIOT.

Fort Gratiot is located in the township of Fort Gratiot, directly north of the seventh ward, city of Port Huron, and is bounded as follows: North by the center line of the Holland road, south by the seventh ward city of Port Huron, east by Lake Huron and St. Clair river, west by Black river.

The city of Fort Gratiot was incorporated in March, 1889, and held its first charter election in April of that year, Robert E. French being the first mayor.

It has a large and commodious public school building, city hall, park, the Walker system of water works, and is lighted with electricity. The extensive car shops of the Chicago & Grand Trunk railway, known as the "Block I shops," are located in the first ward, and cover an entire block, also part of Cedar and Spruce streets, and all Conger avenue, which has been vacated to give the company needed room for carrying on their largely increasing business.

The grounds of the Port Huron Agricultural and Driving Park Association are located on the River Road between Harker and Superior streets.

The Gratiot Electric Railway ($2\frac{1}{4}$ miles) connecting at the junction of Huron avenue and Pine street with the Port Huron Electric Railway, extends to the different beaches and summer resorts north of the city, on Lake Huron.

The city contains a population of 2,536, and shows a decrease of 126 in the past two years; has 538 private residences and several large and substantial business blocks. Its citizens are largely employed in the different departments of the Grand Trunk and the Chicago & Grand Trunk Railways.

The city is divided into three wards, located as follows:

First Ward—From the center line of Huron avenue all east to Lake Huron.

Second Ward—From the center line of Huron avenue west to the center line of Fourth street.

Third Ward—From the center line of Fourth street all west to Black river.
