Three Refinements Women Demanded

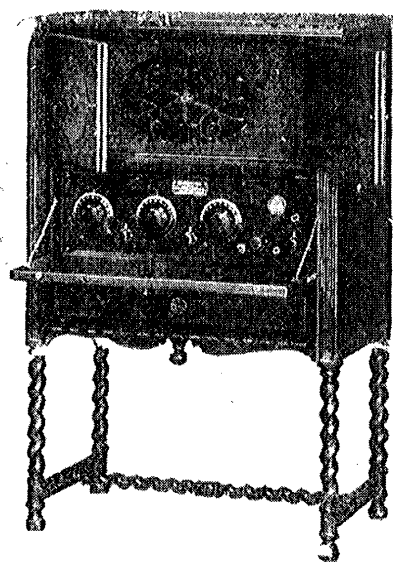

Now United in the Newest Violinola

- Radio simplified so that anyone can operate it.
- Phonograph to play the records of the world's greatest artists—better.
- A cabinet that is a beautiful piece of furniture.

In a setting that will grace the finest living room and in a form that is simplicity itself, a Violinola Phonograph and Radio brings to you the world's two greatest contributions to home entertainment.

Now you need not understand the technicalities of radio to enjoy it. With the Violinola-Radio, anyone can have the thrill of tuning in on the great broadcasting stations, by following a simple chart in setting the dials. It is easier than setting a clock.

The Loud Speaker horn as well as wires and batteries are concealed in the cabinet. The change from phonograph to Radio is made simply by touching a lever.

At will you can listen to current music or the days news on the Radio. And when the mood changes, you have at your command the records of great artists to play what you want when you want it.

Visit the Violinola Shoppe, and allow us to show you any one of 28 models in the combinations—Radio-phonograph. A surprise awaits you

INTRODUCTION

The new Port Huron City Directory is designed to meet the demands among the masses of people, accurate in its information, contains the latest approved methods and is so arranged in alphabetical order that reference to any one is of the greatest ease and convenience.

In compiling this publication we have herein a street guide, alphabetical and classified department, listing the residents, business and manufacturers of the city. I have been aided in this work by the hearty support accorded me in previous issues and my aim is to give our city a directory that is up-to-date and worthy of the commendation of its users.

Thanking you who have co-operated in making this publication a success, I am

At your service,

EARL A. LESTER.

Port Huron Industrially Superior

Port Huron is the gateway of the Upper Lakes and on the St. Clair River.

Consider this splendid location on the Great Lakes. Port Huron offers a wonderful opportunity to the manufacturer. We have the greatest export and importation shipping facilities in this country.

Upon the completion of the Great Lakes-to-Ocean project, Port Huron will be the same as an ocean port.

Black River is navigable for several miles—a number of industries already are located on its banks. This river passes through the center of the city, emptying into the St. Clair River.

Situated on the double-tracked main line of the Grand Trunk running between Chicago, Buffalo, Montreal and Portland, Me. On the Pere Marquette main line between the Niagara frontier and the west through Milwaukee and Manitowoc, and being the terminus for various branches of these great transportation systems, our fast through freight service to and from points east, west, north and south is unexcelled.

Port Huron is also served by the Detroit United Railway (electric) to and from Detroit. The White Star line and Port Huron Terminal Co. lake and river steamers also carry a large volume of tonnage to and from Detroit where they connect with the D. & C. Navigation Co. for Cleveland, Buffalo and eastern points.

A system of Automobile and Truck lines to Detroit and the Thumb district gives passenger and freight service.

Port Huron is the concentration center of the Thumb and St. Clair River districts with a population well over 200,000 people.

Port Huron has an up-to-date free camp site for the automobile tourist, located at the Lighthouse Reserve, foot of Lake Huron under supervision of a competent caretaker.

Port Huron has approximately 8 miles of beautiful beaches, municipal bathing and dancing pavilions.

The New WILLYS KNIGHT

Brings to America the new Lanchester Balancer—giving the Willys Knight engine perfect equipoise and smoothness—amazing even to engineers. Without vibration or engine noise it makes it the nearest thing to gliding. With an engine free from carbon that does improve with use, and a chassis running on balloon tires make it the greatest automobile investment.

It is a good thing, isn't it? You would not think of doing business without it. ¶ But it is only seen by those who pass your way. ¶ The CITY DIRECTORY is where many people look when they want to find you. You should make it easy for them to find you by putting in the Directory such information as a buyer wants to know. Index your business under all classifications where a customer might look for you. ¶ To be properly registered costs less than to be left out. ¶ Send for the City Directory Advertising Man and let him explain this to you in detail ¶

Cadillac Motor Cars

With the addition of the new Custom Built Cadillac-Fisher bodies to a line already superior in point of excellence, there is offered that last degree of refined elegance which has usually been associated only with costly foreign cars or the product of individual custom body builders.

These beautiful bodies are designed for those who desire exclusiveness without needless expense or depreciation.

THEY ARE MOUNTED ON THE TRIED AND PROVED V-63 CHASSIS, AND AN INSPECTION WILL SHOW THAT IN THESE NEW CADILLACS THE COACHMAKER'S CRAFT HAS FOUND ITS SUPREME ACHIEVEMENT
